

Agent integration (MCP)

Deterministic fact tool as the safe default for agentic clients;
hosted extended assistance stays an explicit opt-in (P6)

Live feed connection

Scheduled re-indexing of the curated sources as versioned snapshots: recency by design (B2) without giving up reproducibility

Multi-user operation

Authentication and role separation for analyst teams, shared index,
and a per-query audit trail inside the local deployment boundary (C6)

Analyst user study

Pilot with practicing analysts to validate operational usefulness beyond structured self-assessment
